

Sampling the Psalms Activity

The psalms are a blend of many types of songs to be sung in worship to God. Within the 150 psalms, we find different types, different authors, and different instructions. Your job is to randomly sample five psalms and complete the information in the sections below. Be prepared to share your findings with the rest of the class. Don't expect to find information for all of the blanks, but fill in everything you can find.
