

Mapping the Nations

Using the Scripture passages and information below, identify the area where each of these three grandsons of Noah settled after the dispersion from Babel. Write his name and the name of his father on the map in the appropriate location.

1. Read 2 Samuel 18:20–23. One part of this grandson’s descendants settled to the west of the Red Sea and east of the Nile. This grandson’s name means “dark” in Hebrew.
2. Read Jeremiah 49:34–39 and Acts 2:7–9. This grandson settled north of the Persian Gulf. His descendants are also called Persians.
3. Read Esther 1:19 and Acts 2:7–9. This grandson’s name is the basis for this people group (though it is slightly modified) who settled southwest of the Caspian Sea.

(If your Bible has a set of maps, look for one titled “Table of Nations” and check to see if you correctly identified the three grandsons and their settlements.)
